

The Federal Communications Commission

Dear The Federal Communications Commission,

Enough of my monthly hard-earned salary must be prioritized to my mortgage, food for my family, transportation, savings for retirement, electricity, sanitation, property taxes and medical requirements. No more. I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the absurd and socialist flat fee proposal under consideration, consumers who seldom call long-distance, i.e., residential users such as myself and my family would pay the same as people or businesses that make many calls. I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Maurice Kane
